

KHARKIVENERGOZBUT

Energy

Asset highlights

- **Brief Description:** Kharkivenergozbut is one of the largest regional electricity supply companies in Ukraine. The enterprise purchases electricity from the wholesale market and provides retail supply to industrial, commercial, and residential consumers in Kharkiv oblast — one of the key industrial regions of the country.
- **Products/services:** Electricity for both households and enterprises.
- **Technical Parameters:** The company operates advanced CRM and billing systems, servicing over 1.2 million clients.
- **Project Strengths:** Established customer base in one of Ukraine's largest industrial hubs (Kharkiv oblast). Stable regulated revenues and predictable cash flows.
- **Target Market:** Regional and international energy utilities, investment funds, and private infrastructure investors.

Privatization information

- **Share for sale:** 65%
- **Starting price:** TBD
- **When:** 2026 Q1-Q2
